- 21. Coffee break 11:00-11:30**
- 22. Sum up and plans for WPs (11.30-13:00) *Minutes: The Tallin team***
- 23. Lunch (13:00-14:00)**

Side 2/6

Day 1.

1. Day 1 (25th May): 12-13.30 Lunch and check in

Lunch is served at the hotel and there will be time for check in and other practical issues.

2. 13.30-13.45: Welcome and introduction to the annual meeting program by Berit.

- Introduction to the annual meeting. The program is divided into 3 blocks:
 - 1) Status and presentations of work in the WPs
 - 2) The farm survey – presentation, discussion and conclusions/decisions
 - 3) Planning for the next year, including internal and external networking
- Status of Go4Baltic:
 - 1) achievements
 - 2) important issues in the time to come.

3. 13:45- 14:40 Workpackage 1: Status and examples of work, chaired by Hans Estrup Andersen. *Minutes: The AU team*

- Status of the WP1 (Hans)
- Presentation and discussion of proposed socio-economic scenarios to be simulated by the CAPRI model – presentation by Torbjörn at Videolink/Skype
- Data on land use from workpackage 1 by Hans
- The cost-minimisation modelling – an example of nutrient and climate mitigation scenarios, by Berit

4. 14:40-15:30: Important issues on nutrient and climate policies in the partner countries. *Minutes: The Tallin team*

Short presentations from each country presenting highlights on policy implementation which provides a common understanding for the farm survey and the project:

For each country a short presentation on:

- ✓ Which instruments are in use for nutrient and climate regulation in agriculture?
- ✓ Are there any recent developments or plans for revisions?
- ✓ Which have previously been used and what are the experiences – good/bad?
- ✓ Which voluntary measures and subsidies are in use?

Country presentations:

Side 4/6

- Markku: Climate policy issues in Finland, Janne: Nutrient policy issues Finland
- Katarina: Sweden
- Kaja: Estonia
- Kasia (Katarzyna): Poland
- Berit: The Danish policy on nutrient regulation (WFD), Pia: Danish policy on climate related to agriculture
- Annika/Michelle: EU regulation on fertilisers

5. 15:30-15:45 Coffee break

6. 15:45 – 17:15 Introduction to the farm survey *Minutes: The SLU team*

- Sampling and survey administration (Berit) (15:45-15:55)
- Questionnaire status and development (Berit, Janne) (15:55-16:30)
- Doing a choice experiment as part of the farm survey (Mikolaj) (16:30-17:00)
- Measures to be chosen for the Choice experiment (17:00-17:15) To be continued Day 2! Remember discussion of measures from presentations under (4).

7. End of Day 1, sum up by Berit (17:15-17:25)

17.45 Bus transport to Seaplane Museum, Tallinn. Visit and dinner at 18:00.

Day 2.

8. Day 2 (May 26th): cont. farm survey, status of WP 2,3 and 4

9. 09:00-09:15: Annika/Michelle, BalticEye: Introduction to ongoing work related to fertilisers and manure, BalticEye

10. Discussions and elaboration of the farm survey (9:15-11:00) *Minutes: the LUKE team.*

- ✓ Questions raised during day 1-plenary.
- ✓ Group work:
 - measures to be chosen for the Choice experiment
 - Suggestions for changes in questions in the other parts of the questionnaire
- ✓ Plenary: presentations of group work
- ✓ Proposals for research questions to be answered related to the project description, short outline, ideas for research questions based on farm survey data.

11. Coffee break (11:00-11:30)

12. Workpackage 2: Status and examples of work, chaired by Katarina (11:30-13:00) Minutes: the AU Team

- Katarina Elofsson: WP2: Introduction and status
- Helle and Maria: Determinants of farmers' adoption of novel manure handling technologies – a survey of the literature and discussion of farm survey questions to support WP2-analysis
- Tobias: Do nutrient policies generate innovations in nutrient technology?
- Katarina: The revealed preferences of Baltic Sea countries: goals, policy instruments, and implementation of nutrient abatement measures

13. Lunch (13:00-14:00)

14. Workpackage 3: Status and examples of work, chaired by Antti (14:00-16:00) Minutes: The Tallin team

- Antti Iho: Status of the work package
- Olli Niskanen: Structural development of Baltic Sea animal production
- Antti: Manure Nutrient trading
- Lassi Ahlvik: Side payments in Baltic Sea environmental agreements
- Discussion of ideas of using the farm survey in wp3, inputs to the farm survey

15. Coffe break and bilateral discussions on farm survey/other issues (16:00-16:50)

16. End of project meeting Day 2, sum up by Berit (16:50-16:55)

17. Presentations Estonian agriculture and the environment from stakeholders (17:00-18:00)

- Ms Katrin Rannik, Ministry of Rural Affairs, “Agri-environmental challenges in Estonia”
- Dr Kristjan Piirimäe, the Estonian Fund for Nature , “Baltic friendly agriculture in Estonia”
- Questions and discussion

18.30 Bus transport to Noa Restaurant, Dinner 19:00

Day 3.

Side 6/6

18. Day 3: The work-packages 4 and 5. Sum up and plans for the whole project. Management issues.

19. Workpackage 4: Status and examples of work, chaired by Markku (9:00-10:30) Minutes: The AU team

- Markku Ollikainen: Status of the work package
- Sanna Lötjönen (title to come)
- Line Blok Hansen: Farmers evaluation of nitrogen reduction measures - preliminary results from a Danish farm survey
- Discussion and ideas for using farm survey results in WP4, necessary adjustment to the survey

20. Workpackage 5: Plans by Berit (10:30-11:00) Minutes: The LUKE team

- Status of the work package (Berit)
- Clustering with other BONUS projects, workshops and networking (Berit)
- Plans for policy briefs (Berit)

21. Coffee break 11:00-11:30

22. Sum up and plans for WPs (11.30-13:00) Minutes: The Tallin team

- Sum up and plans for WP1 in the next year by Hans
- Sum up and plan for WP2 in the next year by Katarina
- Sum up and plan for WP3 in the next year by Antti
- Sum up and plan for WP4 for the next year by Markku
- Work and interaction across WPs and external networking by Berit
- Management issues by Berit, questions
