

● ● . PhD scholarship . ● ● Palmyra Portrait Project

The Palmyra Portrait Project offers 1 fully funded PhD scholarship from 1 September 2016-31 August 2019 within the framework of the project.

The scholarship will provide an eminent young researcher the opportunity to become part of the collective research project *The Palmyra Portrait Project* based at Aarhus University, Denmark, and funded by the Carlsberg Foundation.

The project has been running since January 2012 and has since then compiled **the most comprehensive corpus of Roman-period funerary portraits from Palmyra**, which at present comprises approximately 3,000 portraits. The project director is currently looking for a **scholar who has expertise within ancient portraiture**, and who would like to become part of one of the frontrunner projects within ancient portraiture. The team members of the Palmyra Portrait Project have worked on a variety of aspects of the corpus, including priestly representations, women and children. Currently, we are looking to expand the team with further expertise.

We are interested in projects that take their point of departure in **funerary portraiture from Palmyra**, particularly projects focusing on **production economy, chaine opératoire and workshops**. Project proposal should align with the research that has been and is undertaken within the project, which is scheduled to run until the end of 2019.

We encourage applications from candidates who have a **keen interest in production economy, chaine opératoire, workshops, ancient portraiture and identity studies**. In particular, we are interested in proposals that address questions such as:

- Palmyrene portraiture in context – both locally and within the graves themselves.
- Contextualisation of Palmyrene portraiture within the broader regional setting of the Roman Near East.
- Specific aspects, such as representations of Palmyrene men in the funerary portraiture or family constellations.

Project proposal may **relate to and expand on existing projects within the Palmyra Portrait Project** (please see <http://projects.au.dk/palmyraportrait/> for more information). These studies involve both senior scholar projects, PhD and postdoc projects, and prospective applicants should orientate themselves about the subprojects undertaken within the research group already.

PhD scholarship – Palmyra Portrait Project

Prospective PhD candidates should contact the director of the Palmyra Portrait Project, Professor Rubina Raja (Professor of Classical Archaeology, Centre director at the Danish National Research Foundation's Centre of Excellence for Urban Network Evolutions, UrbNet).

We seek highly motivated persons with the following qualifications:

Essential criteria

- A master's degree, preferably in the field of Classical Archaeology.
- A strong interest in ancient portraiture and the Roman Near East.
- Excellent verbal and written communication skills (in English).
- Experience in conducting empirical research.
- Confidence in dealing with other participants and the wider research team.
- Strong collaborative skills (the successful candidates will join a larger multidisciplinary research group and have to deliver as part of a team).

Desirable

- Experience with and/or interest in cross-disciplinary collaboration.
- Fluency in additional languages other than Scandinavian and English.
- Experience with editorial assignments.
- Experience with conference organisation
- Experience with catalogue preparation

The application must include:

- a statement of interest, highlighting your motivation for applying for the position (max. 1 page).
- a full CV, including MA/MSc certificate and grades.
- a short outline of your proposed study and its relevance to the Palmyra Portrait Project (max. 2-3 pages).

For more information, please contact:

Professor Rubina Raja (Classical Archaeology, UrbNet centre director): rubina.raja@cas.au.dk

Application deadline:

1 August 2016

The candidate who is awarded the scholarship/fellowships is expected to commence his/her PhD degree programme 1 September 2016.

Applications are to be submitted directly to Professor Rubina Raja (rubina.raja@cas.au.dk) as well as Centre administrator Christina Levisen (christina.levisen@cas.au.dk).
