

Neuroscience Day 2020

“Flowing Neuroscience”

Tuesday 5 May

NeuroCampus Aarhus is hosting Neuroscience Day 2020 – “**Flowing Neuroscience**” – on Tuesday 5 May

This year’s focus will be “*Vascularization and flow in the CNS*”. The talks will give perspectives on the crucial importance of adequate vascularization and flow in the CNS. Changes in perfusion – from molecular to macroscopic levels - results in a large number of diseases.

NeuroCampus Aarhus welcomes participants and abstracts from **ALL AREAS** related to neuroscience!

THIS YEAR’S SPEAKERS

KEYNOTE SPEAKERS

- 2019 Brain Prize Winner Professor Anne Joutel
- Kate Lykke Lambertsen, University of Southern Denmark
- Nanna MacAulay, University of Copenhagen

INVITED SPEAKERS

- Leif Østergaard, Institute of Clinical Medicine, AU
- Vladimir Matchkov, Department of Biomedicine, AU
- Janne Kærgaard Mortensen, Institute for Clinical Medicine, AU
- Joanna Kalucka, Aarhus Institute of Advanced Studies
- Thorbjørn Søndergaard Engedal, Department of Clinical Medicine, AU

Venue: Aarhus University, The Lakeside Lecture Theatres, building 1250, Bartholins Allé 3, 8000 Aarhus C

Program

The program comprises scientific talks, poster sessions, and exhibits and has been divided into four sessions:

- 1) The Microcirculation in Brain Disease
- 2) CADASIL
- 3) Inflammation and vascular dysfunction
- 4) Flowing components

Featured talk: Details to follow shortly. See our website!

Registration:

Abstract submission deadline: **20 March 2020**

Registration deadline: **20 April 2020**
