

ÓDIN

2026 GRANT CALL

13 APR | 13-15 | ONLINE

KU | DTU | SDU

ODIN is a unique collaboration platform that funds and facilitates open, precompetitive research leading towards drug discovery and new diagnostics. We bring together academics, clinicians, and industry partners to co-create innovative projects that drive scientific breakthroughs. All data created within the projects is openly shared without patents, ensuring broad accessibility.

2026 SCIENTIFIC SCOPE AREAS:

Cardiovascular & Cardiometabolic Diseases

Infectious Diseases

Regenerative Medicine

Disease-Agnostic Platform Technologies & Research Tools/Methods

NEW

Diseases of the Central Nervous System

DISCOVER HOW ODIN CAN SUPPORT YOUR RESEARCH AND COLLABORATION EFFORTS. THIS SESSION WILL COVER

- The 2026 scientific scope and Grant Type 1 call guidelines
- How to propose precompetitive project ideas, find academic and industrial partners, and develop a strong proposal
- Insights from an ODIN company partner (Karina Fog, Senior Director, Lundbeck)
- Experiences & Key Takeaways from 2025 ODIN Grantees

Large Grant for new projects:

- PARTICIPANTS: At least one academic applicant and one industry partner
- LENGTH: Up to 3 years
- BUDGET FOR EACH PROJECT: Up to DKK 6,5 Mil
- TOTAL FUNDING AVAILABLE: Up to DKK 52 Mil
- PURPOSE: To address complex research problems inspired by unmet clinical needs

Deadline for posting ideas/challenges/resources:

April 29, 2026
