

Introduction to FACCE ERA-GAS

Prof Frank O'Mara

Director of Research, Teagasc and FACCE ERA-GAS Coordinator
President of Animal Task Force

ERAGAS ResidueGas Stakeholder Webinar

3 May 2021

FACCE
ERA-GAS

MONITORING & MITIGATION OF GREENHOUSE GASES
FROM AGRI- AND SILVI-CULTURE

The project receives funding from the European Union's Horizon2020 Research & Innovation Programme under grant agreement No 696356.

FACCE
ERA-GAS

ERA-NET Cofund for Monitoring & Mitigation of Greenhouse Gases from Agri- and Silvi-culture

Public-Public Partnership supported by

Joint Transnational Call
for Research Projects,
co-funded by the
European Commission

- Pooling resources
- Designing, coordinating and implementing a joint call and other additional activities
- Joint research priorities
- Common research agenda
- Harmonising activities with European and global initiatives

- Address climate change more effectively through targeted transnational efforts
- GHG solutions that go beyond the local context
- Optimal use of national funds
- Durable cooperation between partners

Joint Transnational Funding Calls

- Launch of **2016 Joint Call** on “Monitoring & mitigation of greenhouse gases from agri- and silvi-culture” – 10 Projects funded (€14M)
- Launch of **2018 Joint Call** on “Novel technologies, solutions and systems to reduce greenhouse gas emissions of animal production systems” – 8 Projects funded (€11M)
- Launch of **2021 Joint Call** on “Circularity in mixed crop and livestock farming systems, with emphasis on greenhouse gas mitigation” – Open: Submission Deadline 26 May 2021 (~€16M)
