This deliverable is a brief notation of the stakeholder event in Tallin May 2016.

### **The purpose of the event**

Stakeholders from Estonian agricultural and environmental administration, organisations and NGO's were invited for presentations and discussion with Go4Baltic participants during the 2nd Go4Baltic annual meeting in Tallin. Since the meeting was held at an early stage of the project, the purpose of the event was primarily to provide information about Estonian agriculture, agricultural and environmental policies and implementation to the Go4baltic project participants, and not to provide information and results from Go4baltic to stakeholders.

### **The programme, and the responsibilities and planning of the event**

Two stakeholders accepted the invitation:

- Dr Kristjan Piirimäe, the Estonian Fund for Nature, "Baltic friendly agriculture in Estonia"
- Ms Katrin Rannik, Ministry of Rural Affairs, "Agri-environmental challenges in Estonia"

Kristjan Piirimäe held as a NGO an interesting presentation about possibilities for the development of Estonian agriculture with focus on the effects for environment and nature. Katrin Rannik was unfortunately getting ill and could not attend the meeting. Kaja Peterson therefore made the presentation on behalf of Katrin Rannik. After the presentations the participants asked questions about the Estonian regulation of agriculture and possible futures.

After the meeting the presenter was invited to the consortium dinner at restaurant Noa in Tallin for further discussion with the project participants.

The programme of the event was planned during spring 2016, and Kaja Peterson SEIT Tallin was responsible for this planning, with sparring from coordinator Berit Hasler.

### **Venue**

The stakeholder event was held in Tallin, at Hotel Euroopa,
